Abstract

Modern education The system is changing radically with the rapid development of information and communication technologies (ICT). Today, the use of ICT tools has become an integral part of the educational process. Music science is not left out of this process, allowing students to effectively use ICT to develop their hearing, creative thinking, and musical aesthetics. This article discusses the use of ICT in 5th grade music lessons. theoretical and practical approaches analysis will be done.

Keywords: Modern education system, information and communication technologies, Music ICT in education, 5th grade music lessons.

Introduction

Education organization in the process of information and communication from technologies use necessity woman on demand became.

Today, the use of modern information and communication technologies in the educational process is becoming relevant for every subject. In particular, in teaching music, the effectiveness of education can be increased through interactive technologies, multimedia tools, Internet resources, virtual platforms, and digital programs.

Music in education information and communication from technologies of use relevance from that The use of information and communication technologies opens up new opportunities for the teacher in teaching his subject, increases the effectiveness of education, the intellectual level of students, forms self-study, self-organization skills, and facilitates the solution of practical problems. The teacher has the opportunity to increase visibility in the teaching process. The use of computer technologies in the classroom makes it possible to make each lesson unconventional, bright, rich, memorable and easy to learn.

In traditional education, music lessons were limited to teacher performance and students singing. Modern ICT tools allow for a deeper immersion in the world of music through visual and auditory means. From ICT use through Interactive lessons, multimedia materials, and virtual training can be organized. In particular, in developed countries, special platforms, music programs, digital synthesizers, and virtual choir applications are widely used in music lessons. This serves to increase students' activity and musical literacy.

5th grade music of lessons main The purpose of the textbook is to form an initial idea and taste for the art of music in students. orchestra , orchestra types about , chorus art , stage music works , world music art and nanotechnology , people songs , composers works , musical genres, national and world music to the samples related topics illuminated is , this plan based on 5th grade music culture science lessons organization is being done.

Lesson order	Lesson topic	Clock
QUARTER I		
Lesson 1	Orchestra . Orchestra types about . Uzbek people instruments orchestra and his/her leisurely instruments group	1
Lesson 2	Orchestra . Orchestra types about . Uzbek people instruments orchestra and his/her leisurely instruments group	1
Lesson 3	Uzbek people instruments orchestra stringed instrument and with a mizrab instruments group	1
Lesson 4	Uzbek people instruments orchestra stringed-bowed instruments group	1
Lesson 5	Uzbek people instruments orchestra tattooed instruments group	1
Lesson 6	Symphonic orchestra and his/her stringed-bowed instruments group	1
Lesson 7	Symphonic of the orchestra wood and copper leisurely instruments group	1
Lesson 8	Symphonic of the orchestra tattooed instruments group	1
Lesson 9	case 1	1
2nd QUARTER		
Lesson 1	Chorus art . Choir of teams structure and types	1
Lesson 2	Chorus art . Choir of teams structure and types	1
Lesson 3	Chorus performance for people their songs adaptation	1
Lesson 4	People instruments and choir for Uzbekistan composers of creativity importance .	1

Lesson 5	In music vocal – symphonic genres	1
Lesson 6	In the Oath Genre , Cantata and oratorios	1
Lesson 7	case 2	1
3RD QUARTER		
Lesson 1	Stage music works	1
Lesson 2	Ballet art	1
Lesson 3	Ballet art	1
Lesson 4	Uzbek dance art	1
Lesson 5	Uzbek dance schools - Fergana , Khorezm , Bukhara - dance schools	1
Lesson 6	Musical drama. T. Jalilov " Tahir" and "Zuhra " musical drama	1
Lesson 7	Musical comedy	1
Lesson 8	Uzeir Hajibekov's " Arshin" goods "Olon " musical comedy world peoples in art place and importance .	1
Lesson 9	Uzeir Hajibekov's " Arshin" goods "Olon " musical comedy world peoples in art place and importance .	1
Lesson 10	3rd control case	1
4TH QUARTER		
Lesson 1	Opera art .	1
Lesson 2	In world opera art J.Verdi of creativity place and importance	1
Lesson 3	V. Mozart , J. Bizet , P. Tchaikovsky , N. Rimsky Korsakov. such as world - renowned composers operas	1
Lesson 4	Uzbek opera genre in music	1
Lesson 5	M. Ashrafi Uzbek music in development instead of S. Yudakov's " Maysara's " The Work " opera , his creation history , place and importance	1
Lesson 6	Children for created Uzbek and world operas	1
Lesson 7	Modern composer of creativity cultural our life in development importance .	1
Lesson 8	4th control case	1

This topics ICT tools in learning – computers , projectors , audio systems , interactive blackboard and mobile from applications use lessons For example , the people their melodies You can use YouTube or MP3 archives for listening , show videos about the lives of composers, and check your level of mastery through interactive tests. Giving homework to students through QR code assignments is also convenient.

Below is 5th grade music Here are two examples of lesson plans based on ICT for lessons :

Lesson 1: “ Choir” "Art "

- Objective : Students Chorus art about imagination harvest to do and develop listening skills.

- ICT tools: Audio column , QR- coded audio files , video clip (chorus of his works performance) , PowerPoint presentation .

- Lesson Process : Students choir his works listens , they expresses opinions about , participates in interactive questions and answers.

Lesson 2: “ Uzbek” dance "Art "

- Purpose : Uzbek dance art with introduction .

- ICT tools: Presentation, music broadcasting program (Audacity), videos, online tests. - Lesson process : Uzbek dance art and his/her manifestations A video about , students will be watching idea will exchange and performs the test.

ICT student's musical ability in development The role is divided into many parts , music student's not only knowledge , but also emotion and to improve the taste level service ICT tools through given interactive materials – animations , music videos , rhythm and tonal exercises student's to hear , to distinguish and memory abilities For example , virtual piano applications through notes study , choir programs using group to sing skills shaping , musical quizzes through knowledge reinforcement possible . These processes in students musical literacy just strengthen without leaving , with their science also increases interest .

Music in science From ICT of use opportunities wide although , in practice some problems there is .

First , all education in institutions necessary technician equipment there is it's not . Secondly , teachers some with ICT work skills enough at the level it's not .

Third , quality and reliable digital content when choosing certain caution measures see necessary .

Solution as the following offer to do possible : schools for special musical platforms create , teachers ICT courses for organization education , sciences according to verified multimedia resources set working exit . Also , the state by music to education digital resources integration according to support mechanisms reinforcement necessary .

Conclusion as this to say maybe music in 5th grade ICT -based lessons organization to grow education efficiency increases , in students musical taste and aesthetics to form service Interactive lessons , multimedia tools , digital testing and assignments students' knowledge of science solid connection provides . Teachers for and this approach the lesson new , modern in format transfer opportunity In the future music in education artificial intelligence , virtual reality technologies and interactive platforms further wider application to the goal appropriate will be . Offer as a rule , 5th grade music lessons QR code for

textbooks , mobile applications , online choir exercises such as projects current to grow possible .
